Patron's Message

Tan Sri Lee Lam Thye
Patron, SPCA Selangor

It gives me a great pleasure and a sense of fulfilment as I pen my message for the SPCA Selangor's 2023 Annual Review. On looking back, I felt deeply honoured and privileged to have been invited to be SPCA Selangor's patron in 2012 by Ms Christine Chin, Chairman of SPCA Selangor.

In reflection, during my tenure as Patron, we had worked together in raising the bar for animal welfare and in lobbying for the current Animal Welfare Act 2015 as well as the many awareness and fundraising activities.

I must commend Ms Christine Chin for her vision and passion in leading the "pack" with much success in moving out of the box of shelter management from just animal rescue to education and mooting spay/neutering as the compassionate way of managing strays.

Allow me to record my heartfelt thanks to Duli Yang Maha Mulia Tengku Permaisuri Selangor, Tengku Permaisuri Hajah Norashikin for her Royal Patronage, and support for the SPCA Stray Free Selangor, which was set up in March 2017 and

has since then funded over RM2million for the neutering of strays and rescued animals in Selangor.

Continuing this vision in 2022 and 2023, the SPCA team started the "Potong Royong" projects where neutering programs were conducted in communities. These projects which includes the Sri Nanding (March 2023: 555 cats; MPKlang (August 2023: 362 cats and 125 dogs and Puchong Mini Potong Royong: 300 dogs) would not have been successful if it weren't for the support of DYMM Tengku Permaisuri Selangor, like-minded organisations, team members, and volunteers.

The 2023 World Animal Day theme of "Creating Caring and Compassionate Communities (CCCC) which is a dedicated initiative that foster empathy, kindness, and compassion as well as bridge communications and actionable gaps so that the councils, residents, animal rescuers and relevant stakeholders will be able to work harmoniously to reduce stray animals and encourage adoption.

One of the many efforts made in 2023 include submission of proposals to Municipal Councils with regards to the management of stray animals and implementation of animal freedom; freedom from hunger/thirst, discomfort, pain/injury/disease, fear/distress as well as freedom to express normal behaviour.

CCCC also takes a strong stand in encouraging Municipal Pounds to provide education, spay/-neuter and rehoming program as opposed to catch and kill approach.

SPCA Selangor continues to educate the public through its Pet Care Program, and I am proud to note that it is mandatory for all volunteers at SPCA Selangor to ensure safety measures for both volunteers and the animals.

It is by this measure that we need to look back at the extremely difficult months and there is no question that the SPCA Selangor's family, consisting of staff, volunteers, management, donors, sponsors, and the public have excelled and remained resilient and focused in rising to the challenge of coping with many abandoned pets and animals' midst the difficulties.

This year, I'm delighted to contribute RM 40,000 to SPCA Selangor from my autobiography's proceeds. It brings me immense joy to support the remarkable efforts of the SPCA team in animal welfare.

The dedication and passion of the entire SPCA Selangor family, including staff, volunteers, management, donors, sponsors, and the public, have truly excelled in facing challenges.

Thank you for your passion and love and I wish you all strength and courage in the months ahead as we forge ahead in our work in animal welfare.

"He who is cruel to animals becomes hard also in his dealings with men. We can judge the heart of a man by his treatment of animals."
Immanuel Kan

Chairman's Message

Christine Chin
Chairman, SPCA Selangor

As we welcome a new government that espouses MALAYSIA MADANI, a semblance of hope and stability has descended on Malaysia. MALAYSIA MADANI espouses the esteemed principles of good governance, sustainable development, and racial harmony.

MALAYSIA MADANI'S principles are indeed lofty and has inspired me with renewed vigor to continue my advocacy for better animal welfare for all creatures great and small.

Our work to protect companion animals, livestock, wild animals and promote kindness towards all these creatures continues unabated. Due to changing models in adoption and fundraising brought about by the Digital Age, SPCA Selangor has also adapted our resources to channel towards projects for better operational and sustainable efficiency.

Highlighted by social media and the press, the catching and culling of stray animals have been met with much protest and the promotion of more humane and sustainable models. SPCA Selangor continues to lobby the government for more Humane, Acceptable and Sustainable measure to control stray population.

SPCA Selangor supports feeders, rescuers, fosterers, and owners of companion animals by offering logistical and financial support and continue to issue our highly subsidized spay/neuter program via SFS Stray Free Selangor the Humane and Compassionate Way.

This year SPCA Selangor CCCC Creating Caring and Compassionate Communities with Municipal Councils and Potong Royong a massive weeklong spay/neuter project in collaboration with private and UPM vets. Please read more about CCCC and Potong Royong in the following pages.

We have had a very successful World Animal Day celebration graced by our SFS Royal Patron, DYMM Tengku Permaisuri Selangor, Tengku Permaisuri Norashikin, MP of Ampang YB Rodziah Ismail, YB Karim Kamaludin DUN of Bukit Antarabangsa and Deputy Speaker and MPAJ YDP Dr Ani Ahmad and Tan Sri Lee Lam Thye, our diligent and esteemed Patron.

We are especially thankful to Tengku Permaisuri Norashikin who makes the efforts to attend all our events and extend her kindness and generosity for better animal welfare and Tan Sri Lee Lam Thye for his continued efforts to speak up against animal cruelty.

Finally, I would like to thank Miss Helen Chan, our Fundraising Head who is retiring this year, my Committee Members, diligent Staff and all rescuers and supporters who continue to be a beacon of light for strays, abandoned, abused dogs and cats.

Thank you all from the bottom of my heart! God bless and all the best for 2024!

Potong Royong

A Year of Impact: Potong Royong 2023 Leaves Pawsitive Mark on Communities

In the spirit of compassion and community, 2023 marked an extraordinary chapter for our Potong Royong initiative. With a commitment to curbing the issue of stray animals, we embarked on a journey that resonated far beyond expectations.

Sri Nanding, March 2023: A Purrfect Start

The inaugural Potong Royong in Sri Nanding set the stage for an incredible year. In March, we successfully neutered a staggering 555 cats, not only controlling the stray cat population but also addressing the potential health and environmental issues associated with uncontrolled breeding. The positive impact of our efforts rippled through the community, fostering a safer and healthier environment for all residents.

Bandar Botanik, August 2023: Unleashing Compassion

Building on the momentum, our second venture in Bandar Botanik in August proved transformative. Here, we not only neutered 362 cats but extended our efforts to include 125 dogs, mitigating the challenges associated with uncontrolled canine populations. The holistic approach of our project not only promotes responsible pet ownership but also contributes to a more harmonious coexistence between animals and the community.

Mini Potong Royong in Rawang and Puchong: Nurturing Communities

Beyond these major events, our Mini Potong Royong sessions in Rawang and Puchong demonstrated the power of community engagement. Approximately 300 dogs received care, leading to a visible reduction in the number of strays and fostering a sense of responsibility among pet owners. The impact reached beyond the animals themselves, positively influencing the overall well-being of the communities we served.

A Year of Success: Over 100 Volunteers and RM120,000 in Subsidies

The heart of our success lies in the collective effort of over 100 dedicated volunteers who poured their time, energy, and expertise into the cause. Together, we provided subsidies totalling over RM120,000, ensuring that financial constraints did not hinder the well-being of animals in need. The economic relief provided to pet owners fosters a more inclusive and compassionate community.

Gratitude to Majlis Perbandaran Klang and Generous Sponsors

We extend our deepest appreciation to Majlis Perbandaran Klang for their active support throughout our journey. Their partnership has been instrumental in the success of Potong Royong, and we are grateful for their unwavering commitment to our cause.

A special thanks is also due to our sponsors, whose generosity has allowed us to expand our reach and make a meaningful impact on the lives of countless animals.

Inspiring Change: Looking Forward to 2024

As we reflect on this transformative year, the successes and challenges alike inspire us to dream bigger. The compassion and dedication demonstrated by our volunteers, the support from our community, and the collaboration with partners motivate us to continue the Potong Royong tradition into 2024.

Together, we can create a future where every animal has the opportunity for a happy, healthy life. Here's to another year of collaboration, compassion, and creating lasting change.

*Join us in the journey towards a brighter, more compassionate future for our furry friends! *

Happy Tails

Shiro (Peas)

Growing up, I've only had a pet and taken care of dogs that belong to my friends & a close neighbor of mine. However, I've always dreamed of having one of my own & I must say SPCA made that dream come true for me. A few sentences wouldn't be enough for this boy, but I just want you to know - It wasn't Shiro who was lucky to find us, but it was us that was lucky to have been paired with a doggo like Shiro! He is what we look forward to at the end of the day.

Brooklyn

This is my beautiful Brooklyn. He is different from other cats and has extremely strong front legs! I discovered him in late 2022 at SPCA during my habitual dog-volunteering morning and I just fell in love with him. I then decided to take him home with me and he has been with me for close to a year now. He still spends time with the SPCA cat family as I drop him off at the cat space nearly every morning. I volunteer at the SPCA, and the wonderful cat family takes him in for longer stays when I travel, as he is very special and requires some extra attention which he fully gets from his SPCA cat-family.

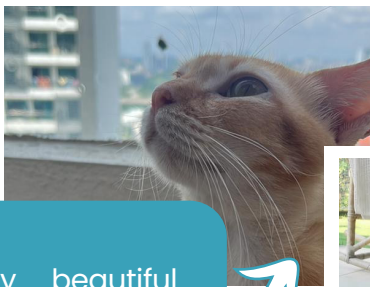

Ally

I first saw Ally from one of the Instagram stories and I was drawn to her sweet eyes and personality. I decided to foster her to see if we would be a good match. She was very timid and would hide under the bed when she moved in. She began to warm up to us after some time and would cuddle with us in bed. After a few weeks, we decided that she will be part of the family and officially adopted her.

Eddie (Noble)

He's my little shadow that follows me everywhere. He still is a bit skittish and scared of new things but he's the master of his own backyard and enjoys walks and treats and chasing the monkeys!

E.R.A.

Year 2023 saw a reduction in the number of surrenders and 246 dogs, puppies, cats, and kittens were adopted into loving homes.

Foods and Funds

The E.R.A Center utilizes a blend of commercial dry pellets, canned soft meals, and cooked meat and rice to nourish our dogs and cats. Ongoing donations of pet food benefit both the Center's immediate needs and our Food Bank, which supplies pet food rations to community feeders and rescuers. To find out how you can contribute to our food bank, visit bit.ly/SPCASelangorFoodBank. The Center funds its operations through various channels, including the sale of items, walk-in contributions, and charity shop sales. If you wish to support our efforts, you can securely make an online donation at <https://www.sPCA.org.my/donation-form/>.

Services

Every day, SPCA Selangor receives pleas for help through phone calls, emails, and social media, with many urging us to take in stray animals and abandoned pets. Due to resource constraints, SPCA cannot realistically accept all these additional animals. However, we do our best to accommodate requests when there is space available. In 2024, we anticipate positive strides for animal welfare in Malaysia and remain dedicated to staying informed about issues and concerns raised by the Malaysian community.

Kittens	183	103
Others	0	0
Total	330	235

2023 Statistics

106

Dogs and puppies brought in

89

Dogs and puppies adopted

Kennel

There was a significant decrease in the number of surrendered canines in 2023, and our focus shifted to rehabilitating and responding to emergencies.

We are happy to have found loving and caring homes for almost 93 of the more than 106 dogs and puppies that the SPCA Selangor took in this year. We are also making every effort to find homes for the remaining animals.

This year, emergency response and rehabilitation were our main priorities. Many mistreated, wounded, and abandoned animals were brought in.

With the help of our committed kennel staff, led by kennel manager Erica Remington, these ill, afraid, and anxious animals have become healthy and happy pets. Although adoption hasn't always been easy, we adopt a NO-KILL policy, meaning that all healthy animals will stay with us until they find loving homes. To facilitate a seamless transition into their new homes, post-adoption communication is recommended.

The Kennel Team puts a lot of effort into maintaining cleanliness in every kennel and making sure all our furry friends are fed and cared for.

Cattery

2023 Statistics

224

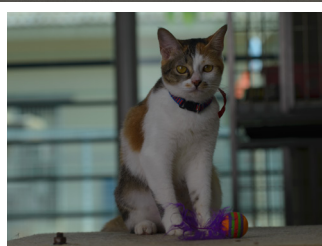

Cats and kittens brought in

146

Cats and kittens adopted

18

Cats and kittens fostered

In 2023, SPCA Selangor has been dedicated to caring for over 224 cats and kittens. 153 of these feline friends have been able to find warm and loving forever homes, where they can receive the attention and care they deserve. It is heartwarming to see so many cats and kittens finding their way to happy and healthy homes.

We have been fortunate to have the support of kind and responsible fosterers, who have taken in and cared for 16 kittens/cats, and nearly all of them have since found their forever homes. We face challenges with the number of kittens that are surrendered or abandoned, therefore we are immensely grateful to our fosterers who generously open up their hearts and homes to help us ease our burdens and save more lives.

We have frequently mentioned our cats in quarantine this year to create awareness and educate the public about the dangers of dumping animals. We also aim to raise awareness about the importance of gently surrendering cats and kittens, as well as the needs of newborn kittens and fostering. Through these short posts, we hope to help people connect with these cats and kittens on a personal level.

World Animal Day

On October 28, 2023, SPCA Selangor marked World Animal Day (WAD) with the theme "Creating Caring and Compassionate Communities (CCCC)." This initiative, a dedicated effort by SPCA, aims to cultivate empathy, kindness, and compassion, fostering effective communication and collaboration among the council, residents, animal rescuers, and stakeholders. The goal is to work harmoniously to reduce stray animals and promote adoption. The event also honoured Potong Royong, featuring an appreciation ceremony for all Potong Royong vet volunteers and sponsors. The success of this project was made possible through the support of DYMM Tengku Permaisuri Selangor, like-minded organizations, team members, and volunteers. The celebration was graced by SPCA Selangor's Royal Patron, DYMM Tengku Permaisuri Selangor, Tengku Permaisuri Norashikin, along with VIP guests.

The event commenced with a demonstration by Unit Pengesanan (K9) Jabatan Bomba dan Penyelamat Malaysia, showcasing Fire Investigation and Cadaver Dogs. There were numerous booths and activities, including MPAJ Licensing registration, a Potong Royong exhibition, Petotum Pet Insurance registration booth, games and lucky draws, busker performances, and various pet food brands. A total of 300 goodie bags were distributed to guests while supplies lasted. In an effort to reduce carbon footprint and promote empathy towards animals, plant-based meals and refreshments were served throughout the event.

Humane Education

Pet Care Program (PCP)

As per our Standard Operating Procedure, we introduce all first-time volunteers to our Pet Care Program (PCP), a one-time training workshop that has been running for a few years at SPCA Selangor. This mandatory session covers SPCA Protocols, animal health, and the Animal Welfare Act in Malaysia. Various hands-on activities are available, along with essential safety and operational procedures. These are crucial for volunteers to comprehend our shelter's functioning and become advocates for SPCA Selangor.

The PCP is conducted every weekend, providing an opportunity for new volunteers to join. This program not only imparts theoretical knowledge but also equips volunteers with practical insights, serving as a foundational step for anyone aspiring to become an official SPCA volunteer.

We are delighted to witness a growing number of new volunteers each week who express enthusiasm in contributing and learning about animal welfare.

Visit pcp.as.me to register for PCP!

Humane Education

Visits to SPCA

Individuals and groups are both welcome all year round. A visit to the SPCA Selangor E.R.A Centre offers students and volunteers a firsthand experience of caring for the animals, instilling the values of compassion and volunteerism. Many schools, higher education institutions, and corporations include visits to SPCA Selangor as part of their community service programs. Additionally, the staff of SPCA actively assist students with assignments and projects related to the organization or animal welfare in a broader context.

Reaching Out

SPCA Selangor receives frequent invitations to conduct educational workshops in kindergartens, schools, colleges, and offices annually. Our officers lead these workshops, covering various animal welfare-related topics, including Responsible Pet Care and Ownership.

Monthly Sunday Bubby Brunch

This year, to raise money, SPCA have started holding a monthly Bubby Brunch. This event has so far taken place primarily at Wuff & Wok Bistro. There will be a busker performance at the premises, and Donne Ray Radford from The Platters makes a guest appearance during the brunch. SPCA welcomes any collaboration with restaurants who would like to host Sunday Bubby Brunch at the restaurant; pet-friendliness is a bonus.

Mori Kohi Adoption Drive

This year, SPCA Selangor is fortunate to be able to collaborate with Mori Kohi Café to hold a pet adoption campaign at their restaurant in addition to selling merchandise. We work together on a regular basis, attempting to plan a pet adoption campaign every month. The adoption drive is titled as "SPCA Presents Pawsome Adoptions". As an effort to raise awareness about adoption at the SPCA, Mori Kohi also permits us to post pictures of the organization's dogs and cats on their wall.

Thank You!

We would also like to express our gratitude to the individuals who generously contributed either cash or essential items through their own personal donations, volunteering efforts, or CSR initiatives, including those who donated proceeds and sales to support our cause.

Campaigns and Activities

Puppy & Kitty Pawties

The SPCA holds an open Puppy Pawty every third Saturday of the month. This program, which was first planned for kids, is now available to anybody of any age who wants to spend some time playing with our adorable puppies. The attraction of this event includes informative tours of our SPCA Selangor facility, demonstrations of basic obedience, and guidance on preventing dog bites. It offers a simple and pleasant way to engage with our animals while getting insightful educational experiences. In addition, our facility is also accessible for private events, like Birthday "Pawties", where kids can celebrate their big day with loved ones, friends, exquisite food, and the delight of hanging out with our energetic pups. All year long, the SPCA is happy to accept reservations for the Puppy and Kitty Pawty; please email events@spca.org to hold your place.

Outreach Events

Our team at SPCA is constantly on the go, setting up adoption, merchandising booths, and leading educational programs at events. We constantly welcome the chance to work with organizations, businesses, colleges, and event planners to spread our message.

Campaigns and Activities

Shell Business Operations Kuala Lumpur (SBO KL)

We are grateful to have received invitations to several of Shell's events. These events have provided us the opportunity to raise money as well as raise awareness of animal welfare. Through merchandise sales at their events, such as Shell Parents Day and Shell Family Day, we were able to fundraise a significant amount of money.

Baker Hughes

Every year, Baker Hughes hosts an annual Universal Children's Day Bazaar at their headquarters, to which the SPCA was once again invited. Other than that, we managed to raise money by selling merchandise which includes t-shirts, calendars, and diaries during their event.

Sequoia International School

In addition to raising money for SPCA Selangor, Sequoia International School held a walkathon carnival called the "Pawsitive Step Campaign" to educate parents, teachers, and students about the significance of animal care. A portion of the earnings from each walkathon ticket sold will go to the SPCA. Prior to the walkathon, the SPCA was invited to give a speech at the school to inform the kids about the organization and animal welfare. The subject matter captivated the interest of all the students and inspired them to contribute to SPCA fundraising.

Spay-neuter Program

We have been operating our high-volume, low-cost spay-neuter program at the E.R.A. Centre. We offer subsidized spay-neuter procedures to those who own companion animals that belong to lower-class individuals, as well as to animal rescuers and those who look after strays in their communities. This year, a total of 5,103 male and female cats and dogs have been neutered.

As opposed to other temporary fixes like dog catching and euthanasia, which are inefficient, costly, and short-sighted, neutering is a proactive intervention that addresses the overpopulation problem at its root. Neutering immediately tackles the overpopulation issue, since thousands of unwanted litters and stray animals are either put to death or suffer on the streets. By spaying and neutering one male and one female cat, more than 20,000 unwanted births can be prevented in 7 years!

We continue to support small Shelter owners and rescues by providing an affordable rescue adoption package (neutering, vaccination, parasite control, minor treatment, education) or neutering. Our neutering program is outsourced to Star Pets and PawsDoc.

We have neutered over 55,000 cats and dogs in the Klang Valley and beyond since 2003. We are delighted to share that the Department of Veterinary Services (DVS) aligns with the vision of having a Stray Free Malaysia, which we can do by passing additional legislation, actively neutering pets, and strays, granting different licenses to different entities, and educating the public.

Learn more about our Spay-Neuter Program by visiting bit.ly/SPCASelangorSpayNeuter.

2023 Statistics	
Total Neutered	Number
Male Cats	1,221
Female Cats	2,561
Male Dogs	273
Female Dogs	1,217
Total	5,272

Government Lobbying and Creating Caring and Compassionate Community

The SPCA's theme for this year's World Animal Day focuses on Creating Caring and Compassionate Communities (CCCC). CCCC is a dedicated initiative that foster empathy, kindness, and compassion as well as bridge communications and actionable gaps so that the council, residents, animal rescuers and relevant stakeholders will be able to work harmoniously to reduce stray animals and encourage adoption. One of the many efforts include proposals for Municipal Councils with regards to the management of stray animals and implementation of animal freedom; freedom from hunger/thirst, discomfort, pain/injury/disease, fear/distress as well as freedom to express normal behavior. CCCC also takes a strong stand in encouraging Municipal Pounds to provide education, spay/neuter and rehoming program as opposed to catch and kill approach.

CCCC strives to prioritize on the following pillars of implementation:

- 1. Take the lead to establish training workshops to train personnel to be responsible with proper dog catching techniques and prevent unnecessary suffering.**
- 2. Work with animal rescuers within Municipalities to assist in spay/neuter and rehoming as well as being a vigilante within their residential community.**
- 3. Continued efforts for Stray Free Selangor program with Royal Patron, DYMM Tengku Permaisuri Selangor.**
- 4. Promote Responsible Pet Ownership (RPO) amongst pet owners and provide proper shelter management for Municipal Council's workers.**
- 5. Create community shelters within Tamans.**
- 6. Work with relevant communities to allow Tap Neuter Return (TNR) stray animals with acceptable SOP whereby rescuers can continue to feed, treat, and manage them.**
- 7. Encourage commercial enterprises to be responsible and spay/neuter stray animals that they keep within or surrounding their commercial compound.**

A Legacy to SPCA Selangor

Have you considered the future destiny of the animals, decades after your departure from the world?

A gift to SPCA through your estate will, or life insurance will be greatly appreciated for us to carry on our mission of saving animals lives far into the future.

You may choose to state your intentions by including the attached clause in your will:

"I give, devise, and bequeath to SOCIETY FOR THE PREVENTION OF CRUELTY TO ANIMALS (SPCA Selangor) (PPM-001-10-12011958), at Jalan Kerja Ayer Lama, 68000 Ampang Jaya, Selangor, Malaysia, cash in amount of Ringgit Malaysia (RM.....) or (property) for SPC's use in account with its stated mission."

For more information, kindly contact SPCA's legal advisors, or inform your lawyer and life insurer of your intention to relieve animal welfare.

Your kindness will always be appreciated by the animals and our next generation forever.
